# Basic Phone Features

## To place a call:

### Internal

Lift Handset, press the **Speaker** button, line button or the New Call soft key, u or Dial 411

### External

Local – Dial 9 + Number

Long Distance – Dial 9 + 1 + Number

## To redial a number:

- To redial the most recently dialed number, press the **Redial** soft key.

## To answer a call:

- Lift the handset.
- If you are using a headset, press the Headset button.
- To use the speakerphone, press the Answer soft key or the Speaker button.
- Press the **line** button to select between incoming calls.

## To end a call:

- Hang up the handset.
- If you are using a headset, press the Headset button or the EndCall soft key.
- If you are using the speakerphone, press the Speaker button or the EndCall soft key.

## To put a call on hold:

- Press the **Hold** button.
- To return to the call, press the **Resume** soft key or the flashing green line button to resume the call.

## To mute a call:

- Press the **Mute** button .
- To disengage mute, press **Mute** again or lift the handset.

## To park a call:

- During an active call, press the Park soft key to park the call. The LCD displays where the call is parked.

**Note where the call is parked.**

## To retrieve a parked call

- To retrieve the parked call, from any IP phone, dial the park extension.

## To transfer a call:

- During a call, press the **Transfer** button .
- Dial the number to which you want to transfer the call and press **Transfer** again. **Or, when the party answers, announce the call and then press the Transfer button.**

## To transfer a call to Voice Mail:

- During a call, press the **Transfer** button. This puts the call on hold.
- Press \*, the extension and then press **Transfer** again.

## To forward all calls to another number:

- Press the **Forward All** soft key.
- Enter the number to which you want to forward all of your calls.

**Note: Enter the number exactly as you would if you were placing a call to that number.**

To verify that your calls are forwarded, look for:

- A Forward All icon in the line label.
- The forwarding information in the header.

## To forward all calls to voicemail:

- Press the **Forward All** soft key.
- Press the messages button.

## To cancel call forwarding:

- Press the **Forward Off** soft key.

## DND (Do Not Disturb):

- Press the **DND** soft key. This puts your phone on do not disturb. Your phone will flash but will not ring.
- To disengage **DND**, press **DND**.

## Decline:

Decline allows you to send an incoming call directly to voicemail. When the call gets declined, the line becomes available to make or receive new calls.

## Overhead Paging from any extension/phone:

- Enter your paging number:
- Wait for the “tone or beep” and speak clearly into the phone,
- press End Call when done (or you can simply hang up the handset, but this may be noisy),

## Conference Now

All users are able to host meetings but must set their pin via **Selfcare portal** before the feature is active for them.

## To Set Pin:

Enter Cisco Self Care Portal address:

**https:** \_\_\_\_\_

Select General Settings – Phone Services – Set Pin – Enter Pin number then Save

**To start meeting** Dial bridge number – \_\_\_\_\_ and follow prompts:

- Enter Meeting Number (4-digit office extension) then # Enter Pin if you’re the meeting host and press # to continue.
- If you’re not the host – dial bridge number – enter meeting number then press # you are placed on hold until meeting host enters pin.

# Voice Mail Setup and Access

## To enroll with voice mail (first use)

Press the **Messages** button , then follow the voice prompts. Enter the first time enrollment password = **1234**.

- Record your name - press # key as soon as you say your name
- Record a greeting
- Set a new password

## To access your voice mail:

Press the **Messages** button  and follow the voice instructions.

**Note:** When you have one or more new messages, the red light on your **handset** remains lit and an envelope icon flashes on your LCD screen. Also the message will appear in your email.

## To access your voice mail from another phone:

- Press the **Messages** button.
- Press the \* key
- Enter your ID (Extension), then press the # key
- Enter your Password (PIN number), then press the # key

## To access your voice mail from outside the building:

- Dial \_\_\_\_\_
- Enter your ID (Extension), then press the # key
- Enter your Password (PIN number), then press the # key

## Basic Controls:
