

WHAT WILL MY CHILD LEARN IN KINDERGARTEN & YOUNG FIVES?

Caledonia's Kindergarten and Young Fives programs are tailored to the kindergarten curriculum, emphasizing both math and literacy instruction alongside the nurturing of social and motor skills. These programs offer a supportive environment where students can engage with the curriculum at a pace suited to their developmental stage. Learning is facilitated through hands-on interactive experiences, fostering a well-rounded educational foundation for both Kindergarten and Young Fives students.

KEY AREAS OF LEARNING

Students typically develop these skills as they progress through their Kindergarten and Young Fives experience.

Language and Literacy

- Identify letters and letter sounds
- Rhyme and identify rhyming patterns
